| Turbo Diesel 6 cylinder | 234 | 468 | 702 | 936 |
| Turbo Diesel 8 cylinder | 274 | 547 | 821 | 1095 |
| Petrol 4 cylinder | 266 | 532 | 799 | 1065 |
| Petrol 6 cylinder | 310 | 620 | 930 | 1240 |
| Petrol 8 cylinder | 361 | 722 | 1084 | 1445 |

**These fuel usage estimates are based on average consumption rates driving economically at safe speeds. Actual fuel usage will differ due to road and driving conditions and vehicle efficiency. The estimates are intended to provide travellers with an estimation of fuel requirements and travel costs. Travellers should always carry more fuel than is required when driving in the outback. It is recommended that Outback Way travellers re-fuel at each of the roadhouses to maintain adequate fuel supplies and to enable a short stop in order to rest, revive and survive. Safe travelling.**
